

REPUBLIC OF KENYA

COUNTY GOVERNMENT OF KISUMU

**PUBLIC PARTICIPATION PROPOSALS FOR THE KISUMU COUNTY
ANNUAL DEVELOPMENT PLAN
(ADP FY 2025/2026)**

THEME: *Towards a Peaceful and Prosperous County*

FOREWORD

This report stands as a testament to the commitment of our county government to ensure inclusivity and transparency in decision-making processes. The County government of Kisumu understands that, public participation is the cornerstone of a thriving democracy, and it is a principle that we hold dear in Kisumu County. Our journey towards effective public engagement has been marked by continuous efforts to involve our citizens in shaping the policies, projects, and services that directly impact their lives. The invaluable insights gathered from the 70 County Village Units during this initiative will undoubtedly guide our decisions as we strive to create a better Kisumu for all. It reaffirms our commitment to accountable governance and reinforces the idea that when communities are engaged, we collectively build a stronger, more resilient county.

Consequently, in this report, village priorities, reflecting the voices, concerns, and aspirations of the residents of Kisumu County is captured. It captures the diverse priorities and interests of our communities, highlighting their invaluable contributions to the development of our county.

I would like to express my gratitude to the dedicated teams of professionals, administrators, and community leaders who tirelessly facilitated this extensive public participation exercise. Their dedication and commitment to ensuring that every voice was heard have been commendable.

As we delve into the findings and recommendations presented in this report, let us remember that public participation is an ongoing process. It is our responsibility as a government to continually seek, listen, and act upon the input of our citizens.

This report thus serves as both a record of our progress and a roadmap for the future. Let it be a source of inspiration for all stakeholders, motivating us to work hand in hand as we build a prosperous, inclusive, and resilient Kisumu County.

GEORGE O. OKONG'O
CECM, FINANCE, ECONOMIC PLANNING AND ICT SERVICES

EXECUTIVE SUMMARY

The Kisumu County Annual Development plan public participation report outlines the development priorities/strategies obtained from the public fora in the 70 County village units. The objective of the public participation process was to ensure that the ADP 2025/2026 reflects the needs, aspirations, and priorities of the local community. The report highlights the feedback received from the public, which will inform the sectors' priorities and strategies in the fiscal year 2025/2026. Similarly, the development issues identified are presented per Sub County, per village per sector.

The feedback received was diverse and reflected the needs and priorities of different groups in the community. Moreover, the public participation report demonstrates the county government's commitment to inclusive and transparent decision-making.

In conclusion, the public participation process was effective in engaging the local community and incorporating their perspectives into the county's ADP FY 2025/2026. The Kisumu County Government is committed to continue involving the community in the implementation of the Annual Development Plan 2025/2026 and to ensure that the programmes and projects reflect the needs and priorities of the local community.

| 10. | Public Service, County Administration & Participatory Development, Office of the Governor. | <ul style="list-style-type: none"> • Civic Education • Construction of Ward and Village Administrators' offices • Equipping village admin office |

9.0 Challenges.

- The Kisumu County Public Participation Act 2015 not fully operationalized;
- Weak mechanisms for integrated local development planning at ward, urban area, village levels linked to the CIDP, ADP and budgeting framework;
- Inadequate standards and guidelines for public participation;
- Limited civic education and information for informed public participation;
- Use of inappropriate formats for presentation of technical information to the citizens
- Inadequate coordination among county government agencies and stakeholders due to incoherent procedures;
- Limited scope of community outreach and mobilization channels for participation;
- Limited capacities of state actors to facilitate public participation;
- Inadequate political will and commitment among public officials - public participation is tokenistic just to meet the minimum requirements of the law;
- Public cynicism, disinterest, apathy and negative perceptions about public participation due to inadequate feedback on implementation of the citizens' priorities;
- Limited awareness of the right to participation, information and development
- Inadequate mechanisms for social accountability including monitoring and evaluation

10.0 The Key focus areas

- Facilitation of civic education for meaningful public participation
- Ensuring access to timely information for informed public participation
- Facilitation of public participation processes in decision making
- Promoting inclusive participation of marginalized communities, minorities and vulnerable groups.
- Strengthening public complaint management, feedback and reporting system
- Building institutional capacity for effective public participation
- Strengthening framework for multi-sectoral and intergovernmental coordination
- Strengthening enabling legal and policy environment/framework
- Ensuring sustainable financing and public investment
- Strengthening research, monitoring, evaluation and social accountability systems
